## 2024 ARCTIC WINTER GAMES

### 1. Introduction

Technical Packages are critical guiding documents that assist Host Societies as they coordinate all sport competition (including competition formats, rules and procedures) and Mission Teams as they coordinate their teams' participation (including athlete eligibility, categories and team composition). Every Games' Host Society and Participating Unit's Mission Team, Coaches and Managers have an obligation to read and understand every aspect of the Technical Package. Should a need for clarification arise, questions should be directed through the Participating Unit's Chef de Mission for review and response by the Arctic Winter Games International Committee (AWGIC) Technical Director and Technical Coordinator.

### 2. Rules

This competition will be conducted under the rules of the [International Biathlon Union \(IBU\) Event and Competition Rules](#) as published on January 1 of the year of the Games, except as modified by the AWGIC (Section 13). Where no specific rule exists for a situation, the principle or the intent of the IBU Rules will be used to determine the resolution of the situation. Prior to the start of competition the Biathlon Technical Delegate will review the Arctic Winter Games Rule Modifications with all coaches. The Host Society must advise Chefs on sanctioning and any related matters that might affect their teams.

### 3. Sanction

The competition will be conducted under the [IBU Event and Competition Rules](#) as published on January 1 of the year of the Games, unless otherwise approved by the AWGIC. Where possible, the Host Society should explore sanctioning under their jurisdiction's sport governing body (e.g., Biathlon Canada). Should a competition be granted sanction, the Host Society will communicate said sanction to all Participating Units, including the conditions of the sanction that may or may not differ from the International Federation's (IFs) rules and sanction.

### 4. Participants

Each Participating Unit may enter a team comprised of a maximum of eight (8) participants and three (3) coaches as listed below. All age categories are based upon an athlete's age as of December 31 prior to the Games.

## **12. Arctic Winter Games Rule Modifications**

### Shooting Positions, Carrying and Range Procedures

- a. Shooting Positions
  - U15 Competitors shoot in the prone position only.
  - U18 Competitors shoot in the prone or standing position according to the sequences for each event.
- b. Rifle Carrying
  - U15 Competitors shall have their rifles placed on and removed from the firing line (mats) by their coaches or range officials.
  - U18 Competitors will carry their rifles only on the range and securely positioned on their back with the proper biathlon harness.
- c. Range Procedures for U15 competitors (IBU Rule 8.5.2 Modified)
  - The rifles for U15 competitors shall be pre-positioned on the firing point mats by their coaches, with the barrel pointing toward the targets and in such a way that the rifle can be picked up safely by the Competitor. The Competitor shall carry out the entire loading and firing procedure without assistance. After firing the last shot of each bout, the Competitor must open the action, remove the magazine, and place the rifle on the firing point mat with the barrel pointing toward the targets, and then exit the firing point and the range in the normal manner.
- d. Penalty
  - If the rifle is left with the action closed each violation shall result in a 2-minute penalty imposed by the Competition Jury. The Competition Jury shall handle other issues arising from the procedures according to the principles set out in the IBU Rules and to common sense.
- e. Coaches Responsibility
  - Coaches are solely responsible for the pre-positioning of the rifles, moving them to another firing point or away from the firing points, and for the provision of ammunition to their Competitors. No time adjustment will be awarded for a delay caused by any action that is the coaches' error. In addition, the coaches are responsible for ensuring that a rifle placed on a mat does not impede or otherwise disrupt or interfere with other Competitors.

**TECHNICAL PACKAGE**  
**2024 ARCTIC WINTER GAMES**

---

f. Safety Check

- The Competitors' Coach is responsible for performing the safety check on the rifle before it is moved to another location – by confirming that there is no inserted magazine, that the action has been opened, and that there is no round in the chamber.

Range Procedures for U18 competitors (IBU Rule 8.5.2 Modified)

- a. Prior to the start of the competition, all U18 competitors will have their rifles - with the bolts open unless otherwise authorized - placed in racks located on the left or right side of the trail, as decided by the Technical Delegate based on circumstances, just inside of the 10 m line at the entrance to the range.
- b. Competitors must come to a complete stop on the mats located in front of these racks before they start to pick up their rifles following the rules outlined in IBU 8.5.2. Each competitor will then pick up their rifle and place the rifle in the correct carrying position on their back.
- c. Competitors will then ski to their firing points and carry out normal range procedures, as defined in the IBU rules (IBU 8.5.4), for removal and replacement of the rifle, for shooting, and for leaving the firing point.
- d. After completing a bout of shooting, each Competitor will proceed to the rifle racks located on the left or right side of the trail just inside of the 10 m line at the exit of the range and must come to a complete stop on the mats located in front of these racks. They will then remove the rifle from their back and place their rifle on the racks, again following the rules outlined in IBU 8.5.4. The action/bolt must be in the open position when the rifle is placed on the rack. Notwithstanding IBU Rule 8.5.2, once on the mat in front of a range exit rack, provided that the barrel is pointed up, a competitor will open the bolt in order to prepare the rifle for placement on the rack. The competitor must be in full control of the rifle while opening the bolt (Bolt must not be opened on the rack). Once the rifle has been safely and securely placed on the rack the competitor may continue with the competition.
- e. In the case of inclement weather, the Technical Delegate, or in their absence the Chief of Competition or the Chief of Range, may authorize that a designated official close the bolt of the rifles that have been placed in the exit rack to prevent the build-up of snow or ice, but only after inspecting the rifle to verify that the bolt was open, no rounds or empty casings were in the chamber, and that no rounds are present in any magazine inserted into the action of the rifle. This will permit

**TECHNICAL PACKAGE**

---

rifles to be carried and to be left in the rifle rack with closed bolts to prevent the ingress of snow and ice when conditions are adverse.

- f. Competitors must not be interfered with when retrieving rifles or when placing rifles into the racks.
- g. At the end of the competition, each Competitor must collect their rifle, prove it to be safe, and proceed to the designated Material Inspection location so that any required inspection can be completed. Completion of this obligation and any ensuing inspection marks the end of the competition for the non-carrying Competitor.
- h. Penalties
  - Any safety violation during the above-specified procedures shall result in a two-minute penalty imposed by the Competition Jury.
  - The Competition Jury shall handle other issues arising from the procedures according to the principles set out in the IBU Rules and to common sense.

#### Penalty Loop

- a. Penalty loops apply to the sprint, mass start, pursuit and relay competitions.
- b. The penalty loop distance for all events shall be 100 meters.
- c. One penalty loop shall be skied for each target missed.
- d. The required number of penalty loops shall be skied immediately after each round of shooting.
- e. A two-minute penalty shall be added to a competitor's time for each penalty loop not skied.
- f. Competitors are responsible for ensuring that they complete the correct number of penalty loops.

The rifles and other equipment shall be checked for compliance with the rules and marked as such under the supervision of the chief of competition. A spare rifle and other equipment can also be checked and marked using the same procedures if requested by a competitor or their coach. Spare rifles and equipment may only be used if the original equipment malfunctions during the course of an event.

All rifles and equipment must also be checked after each race as per IBU rules.

The competitor's coach may provide the replacement equipment to the athlete during the course of the race provided they do not interfere with the progress of any other athlete. If an equipment change is required while the athlete is on the range, this must be completed through a range official.
